

42 U.S. Code § 280g-13

National congenital heart disease research, surveillance, and awareness

(a) In general

The Secretary shall, as appropriate—

- (1) enhance and expand research and data collection efforts related to congenital heart disease, including to study and track the epidemiology of congenital heart disease to understand health outcomes for individuals with congenital heart disease across all ages;
- (2) conduct activities to improve public awareness of, and education related to, congenital heart disease, including care of individuals with such disease; and
- (3) award grants to entities to undertake the activities described in this section.
