
42 U.S. Code § 299b-37

Dissemination and building capacity for research

(a) In general

(1) Dissemination

The Office of Communication and Knowledge Transfer (referred to in this section as the “Office”) at the Agency for Healthcare Research and Quality (or any other relevant office designated by Agency for Healthcare Research and Quality), in consultation with the National Institutes of Health, shall broadly disseminate the research findings that are published by the Patient Centered Outcomes Research Institute established under section 1320e(b) of this title (referred to in this section as the “Institute”) and other government-funded research relevant to comparative clinical effectiveness research. The Office shall create informational tools that organize and disseminate research findings for physicians, health care providers, patients, payers, and policy makers. The Office shall also develop a publicly available resource database that collects and contains government-funded evidence and research from public, private, not-for profit, and academic sources.
