
42 U.S. Code § 300cc-13

Terry Beirn Community-Based AIDS Research Initiative

(a) In general

After consultation with the Commissioner of Food and Drugs, the Director of the National Institutes of Health, acting through the Director of the National Institute of Allergy and Infectious Diseases, may make grants to public entities and nonprofit private entities concerned with acquired immune deficiency syndrome, and may enter into contracts with public and private such ^[1]entities, for the purpose of planning and conducting, in the community involved, clinical trials of experimental treatments for infection with the etiologic agent for such syndrome that are approved by the Commissioner of Food and Drugs for investigational use under regulations issued under section 355 of title 21.
