

42 U.S. Code § 300d-72

Promoting poison control center utilization

(a) In general

The Secretary shall carry out, and expand upon, a national media campaign to educate and support outreach to the public and health care providers about poisoning and toxic exposure prevention and the availability of poison control center resources in local communities and to conduct advertising campaigns concerning the nationwide toll-free number and other available communication technologies established, implemented, or maintained under section 300d-71(a) of this title.
