
42 U.S. Code § 300mm-51

Research regarding certain health conditions related to September 11 terrorist attacks

(a) In general

The WTC Program Administrator shall conduct or support—

- (1) research on physical and mental health conditions that may be related to the September 11, 2001, terrorist attacks;
- (2) research on diagnosing WTC-related health conditions, in the case of conditions for which there has been diagnostic uncertainty; and
- (3) research on treating WTC-related health conditions, in the case of conditions for which there has been treatment uncertainty.

The Administrator may provide such support through continuation and expansion of research that was initiated before January 2, 2011, and through the World Trade Center Health Registry (referred to in section 300mm-52 of this title), through a Clinical Center of Excellence, or through a Data Center.
