

## 42 U.S. Code § 1885

---

### Congressional statement of findings and declaration of policy respecting equal opportunities in science and engineering

---

(a) The Congress finds that it is in the national interest to promote the full use of human resources in science and engineering and to insure the full development and use of the scientific and engineering talents and skills of men and women, equally, of all ethnic, racial, and economic backgrounds, including persons with disabilities.
