## 42 U.S. Code § 1962d-5c

---

### Non-Federal public bodies, installment construction payments

---

#### **(a) Annual installments during period of construction in absence of other provision for extended repayment**

In connection with any water resource development project, heretofore, herein, or hereafter authorized to be undertaken by the Secretary of the Army, the construction of which has not been initiated as of March 7, 1974, where authorization requires that non-Federal public bodies make an agreed-upon cash contribution as part of their reimbursement to the Federal Government for construction costs, or a specific portion of the construction costs, and where there exists no other provision of law which would permit extended repayment for the construction costs or such specific portion of the construction costs involved, such non-Federal public bodies may make such repayment in annual installments during the period of construction.
