42 U.S. Code § 2000ee-3

Federal agency data mining reporting

(a) Short title

This section may be cited as the "Federal Agency Data Mining Reporting Act of 2007".

(b) Definitions

In this section:

(1) Data mining

The term "data mining" means a program involving pattern-based queries, searches, or other analyses of 1 or more electronic databases, where—

(A) a department or agency of the Federal Government, or a non-Federal entity acting on behalf of the Federal Government, is conducting the queries, searches, or other analyses to discover or locate a predictive pattern or anomaly indicative of terrorist or criminal activity on the part of any individual or individuals;

(B) the queries, searches, or other analyses are not subject-based and do not use personal identifiers of a specific individual, or inputs associated with a specific individual or group of individuals, to retrieve information from the database or databases; and

(C) the purpose of the queries, searches, or other analyses is not solely—

(i) the detection of fraud, waste, or abuse in a Government agency or program; or

(ii) the security of a Government computer system.
