## Annual reports by agricultural attachés

---

### **(a) In general**

The Secretary shall require appropriate officers and employees of the Department of Agriculture, including those stationed in foreign countries, to prepare and submit annually to the Secretary detailed reports that—

(1) document the nature and extent of—

(A) programs in such countries that provide direct or indirect government support for the export of agricultural commodities and the products thereof;

(B) other trade practices that may impede the entry of United States agricultural commodities and the products thereof into such countries; and

(C) where practicable, the average prices and costs of production in such countries for like commodities exported from the United States to such countries; and
