

7 U.S. Code § 1981e

Planting and production history guidelines

(a) In general

The Secretary shall ensure that appropriate procedures, including to the extent practicable onsite inspections, or use of county or State yield averages, are used in calculating future yields for an applicant for a loan, when an accurate projection cannot be made because the applicant's past production history has been affected by natural disasters declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).
