
7 U.S. Code § 918c

Rural and remote communities electrification grants

(a) Definitions

In this section:

- (1) The term “eligible grantee” means a local government or municipality, peoples’ utility district, irrigation district, and cooperative, nonprofit, or limited-dividend association in a rural area.
- (2) The term “incremental hydropower” means additional generation achieved from increased efficiency after January 1, 2005, at a hydroelectric dam that was placed in service before January 1, 2005.
- (3) The term “renewable energy” means electricity generated from—
 - (A) a renewable energy source; or
 - (B) hydrogen, other than hydrogen produced from a fossil fuel, that is produced from a renewable energy source.
