
7 U.S. Code § 2009bb-1a

Interstate cooperation for economic opportunity and efficiency

(a) In general

The Authority shall provide assistance to States in developing regional plans to address multistate economic issues, including plans—

- (1) to develop a regional transmission system for movement of renewable energy to markets outside the region;
- (2) to address regional transportation concerns, including the establishment of a Northern Great Plains Regional Transportation Working Group;
