

7 U.S. Code § 3179

Research on strategies to promote the selection and consumption of healthy foods

(a) In general

The Secretary, in consultation with the Secretary of Health and Human Services, shall establish a research, demonstration, and technical assistance program to promote healthy eating and reduce the prevalence of obesity, among all population groups but especially among children, by applying the principles and insights of behavioral economics research in schools, child care programs, and other settings.
