

7 U.S. Code § 5405

Agricultural air quality research oversight

(a) Findings

Congress finds that—

- (1) various studies have alleged that agriculture is a source of PM–10 emissions;
- (2) many of these studies have often been based on erroneous data;
- (3) Federal research activities are currently being conducted by the Department of Agriculture to determine the true extent to which agricultural activities contribute to air pollution and to determine cost-effective ways in which the agricultural industry can reduce any pollution that exists; and
