

15 U.S. Code § 205c

Definitions

As used in this subchapter, the term—

- (1) “Board” means the United States Metric Board, established under section 205d of this title;
- (2) “engineering standard” means a standard which prescribes (A) a concise set of conditions and requirements that must be satisfied by a material, product, process, procedure, convention, or test method; and (B) the physical, functional, performance and/or conformance characteristics thereof;
- (3) “international standard or recommendation” means an engineering standard or recommendation which is (A) formulated and promulgated by an international organization and (B) recommended for adoption by individual nations as a national standard;
