
15 U.S. Code § 720

Definitions

In this chapter:

(1) Alaska natural gas

The term “Alaska natural gas” means natural gas derived from the area of the State of Alaska lying north of 64 degrees north latitude.

(2) Alaska natural gas transportation project

The term “Alaska natural gas transportation project” means any natural gas pipeline system that carries Alaska natural gas to the border between Alaska and Canada (including related facilities subject to the jurisdiction of the Commission) that is authorized under—

- (A) the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.); or
- (B) section 720a of this title.
