

15 U.S. Code § 720g

Study of alternative means of construction

(a) Requirement of study

If no application for the issuance of a certificate or amended certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project has been filed with the Commission by the date that is 18 months after October 13, 2004, the Secretary shall conduct a study of alternative approaches to the construction and operation of such an Alaska natural gas transportation project.
