

15 U.S. Code § 773

Public disclosure of information

(a) Analyses, data, information, reports, and summaries; objectives of disclosure

The Administrator shall make public, on a continuing basis, any statistical and economic analyses, data, information, and whatever reports and summaries are necessary to keep the public fully and currently informed as to the nature, extent, and projected duration of shortages of energy supplies, the impact of such shortages, and the steps being taken to minimize such impacts.
