
15 U.S. Code § 2055a

Publicly available consumer product safety information database

(a) Database required

(1) In general

Subject to the availability of appropriations, the Commission shall, in accordance with the requirements of this section, establish and maintain a database on the safety of consumer products, and other products or substances regulated by the Commission, that is—

- (A) publicly available;
- (B) searchable; and
- (C) accessible through the Internet website of the Commission.

(2) Submission of detailed implementation plan to Congress

Not later than 180 days after August 14, 2008, the Commission shall transmit to the appropriate Congressional committees a detailed plan for establishing and maintaining the database required by paragraph (1), including plans for the operation, content, maintenance, and functionality of the database. The plan shall detail the integration of the database into the Commission's overall information technology improvement objectives and plans. The plan submitted under this subsection shall include a detailed implementation schedule for the database, and plans for a public awareness campaign to be conducted by the Commission to increase consumer awareness of the database.

(3) Date of initial availability

Not later than 18 months after the date on which the Commission submits the plan required by paragraph (2), the Commission shall establish the database required by paragraph (1).
