

15 U.S. Code § 2626

Development and evaluation of test methods

(a) In general

The Secretary of Health and Human Services, in consultation with the Administrator and acting through the Assistant Secretary for Health, may conduct, and make grants to public and nonprofit private entities and enter into contracts with public and private entities for, projects for the development and evaluation of inexpensive and efficient methods (1) for determining and evaluating the health and environmental effects of chemical substances and mixtures, and their toxicity, persistence, and other characteristics which affect health and the environment, and (2) which may be used for the development of information to meet the requirements of rules, orders, or consent agreements under section 2603 of this title. The Administrator shall consider such methods in prescribing under section 2603 of this title protocols and methodologies for the development of information.
