

# 15 U.S. Code § 5411a

---

## Certification and accreditation

---

### **(a) Certification**

A person publishing a document setting forth guidance or requirements for the certification of manufacturing systems as fastener quality assurance systems by an accredited third party may petition the Director to approve such document for use as described in section 54.02(7)(B)(iii)(I) of this title. The Director shall act upon a petition within 180 days after its filing, and shall approve such petition if the document provides equal or greater rigor and reliability as compared to ISO/IEC Guide 62.
