

---

# 15 U.S. Code § 8802

---

## Purposes

---

The purpose of this chapter is to ensure the continued leadership of the United States in quantum information science and its technology applications by—

- (1) supporting research, development, demonstration, and application of quantum information science and technology—
  - (A) to expand the number of researchers, educators, and students with training in quantum information science and technology to develop a workforce pipeline;
  - (B) to promote the development and inclusion of multidisciplinary curriculum and research opportunities for quantum information science at the undergraduate, graduate, and postdoctoral level;
  - (C) to address basic research knowledge gaps, including computational research gaps;
  - (D) to promote the further development of facilities and centers available for quantum information science and technology research, testing and education; and
  - (E) to stimulate research on and promote more rapid development of quantum-based technologies;
