

15 U.S. Code § 8951

Definitions

In this subchapter:

(1) Contaminant

The term “contaminant” means any physical, chemical, biological, or radiological substance or matter in water.

(2) Contaminant of emerging concern; emerging contaminant

The terms “contaminant of emerging concern” and “emerging contaminant” mean a contaminant—

- (A) for which the Administrator has not promulgated a national primary drinking water regulation; and
- (B) that may have an adverse effect on the health of individuals.
