
40 C.F.R. § 35.3515

Allotment and withholdings of funds.

(a) *Allotment*—(1) *General*. Each State will receive a minimum of one percent of the funds available for allotment to all of the States.

(2) *Allotment formula*. Funds available to States from fiscal year 1998 appropriations and subsequent appropriations are allotted according to a formula that reflects the infrastructure needs of public water systems identified in the most recent Needs Survey submitted in accordance with section 1452(h) of the Act.

(3) *Period of availability*. Funds are available for obligation to States during the fiscal year in which they are authorized and during the following fiscal year. The amount of any allotment not obligated to a State by EPA at the end of this period of availability will be reallocated to eligible States based on the formula originally used to allot these funds, except that the Administrator may reserve up to 10 percent of any funds available for reallocation to provide additional assistance to Indian Tribes. In order to be eligible to receive reallocated funds, a State must have been obligated all funds it is eligible to receive from EPA during the period of availability.
