

# 40 C.F.R. § 49.121

---

## Introduction.

---

(a) *What is the purpose of the “General Rules for Application to Indian Reservations in EPA Region 10”?* These “General Rules for Application to Indian Reservations in EPA Region 10” establish emission limitations and other requirements for air pollution sources located within Indian reservations in Idaho, Oregon, and Washington that are appropriate in order to ensure a basic level of air pollution control and to protect public health and welfare.
