
40 C.F.R. § 49.129

Rule for limiting emissions of sulfur dioxide.

- (a) *What is the purpose of this section?* This section limits the amount of sulfur dioxide (SO₂) that may be emitted from certain air pollution sources operating within the Indian reservation to control ground-level concentrations of SO₂.
- (b) *Who is affected by this section?* This section applies to any person who owns or operates an air pollution source that emits, or could emit, SO₂ to the atmosphere.
- (c) *What is exempted from this section?* This section does not apply to furnaces and boilers used exclusively for space heating with a rated heat input capacity of less than 400,000 British thermal units (Btu) per hour, and mobile sources.
