

## 40 C.F.R. § 50.17

---

### National primary ambient air quality standards for sulfur oxides (sulfur dioxide).

---

- (a) The level of the national primary 1-hour annual ambient air quality standard for oxides of sulfur is 75 parts per billion (ppb, which is 1 part in 1,000,000,000), measured in the ambient air as sulfur dioxide (SO<sub>2</sub>).
