## 40 C.F.R. § 51.1009

---

### Moderate area attainment plan control strategy requirements.

---

(a) The state shall identify, adopt, and implement control measures, including control technologies, on sources of direct PM<sub>2.5</sub> emissions and sources of emissions of PM<sub>2.5</sub> plan precursors located in any Moderate PM<sub>2.5</sub> nonattainment area or portion thereof located within the state consistent with the following:

(1) The state shall identify all sources of direct PM<sub>2.5</sub> emissions and all sources of emissions of PM<sub>2.5</sub> precursors in the nonattainment area in accordance with the emissions inventory requirements of § 51.1008(a).

(2) The state shall identify all potential control measures to reduce emissions from all sources of direct PM<sub>2.5</sub> emissions and all sources of emissions of PM<sub>2.5</sub> plan precursors in the nonattainment area identified under paragraph (a)(1) of this section.

(i) The state is not required to identify and evaluate potential control measures to reduce emissions of a particular PM<sub>2.5</sub> precursor from any existing sources if the state has submitted a comprehensive precursor demonstration approved by the EPA pursuant to § 51.1006, except where the EPA requires such information as necessary to evaluate the comprehensive precursor demonstration pursuant to § 51.1006(a)(1)(ii).

(ii) The state is not required to identify and evaluate potential control measures to reduce emissions of a particular PM<sub>2.5</sub> precursor from any existing major stationary sources if the state has submitted a major stationary source precursor demonstration approved by the EPA pursuant to § 51.1006, except where the EPA requires such information as necessary to evaluate the major stationary source precursor demonstration pursuant to § 51.1006(a)(1)(ii).
