

40 C.F.R. § 52.2780

Control strategy for sulfur oxides.

- (a) The requirements of subpart G of this chapter are not met since there has not been a satisfactory demonstration that the Virgin Islands plan provides for the attainment and maintenance of the national ambient air quality standards for sulfur oxides on the island of St. Croix.
- (b) The following parts of regulation 12 V.I.R. and R. 9:204-26, “Sulfur Compounds Emission Control,” as submitted to EPA on January 21, 1976 and as amended and resubmitted to EPA on June 3, 1976 are approved:
