

## 40 C.F.R. § 59.101

---

### Definitions.

---

*Adhesion promoter* means a coating designed to facilitate the bonding of a primer or topcoat on surfaces such as trim moldings, door locks, and door sills, where sanding is impracticable, and on plastic parts and the edges of sanded areas.

*Administrator* means the Administrator of the United States Environmental Protection Agency (U.S. EPA) or an authorized representative.

*Automobile* means passenger cars, vans, motorcycles, trucks, and all other mobile equipment.

*Automobile refinish coating component* means any portion of a coating, such as a reducer or thinner, hardener, additive, etc., recommended (by its manufacturer or importer) to distributors or end-users for automobile refinishing. The raw materials used to produce the components that are mixed by the end-user to prepare a coating for application are not considered automobile refinish coating components. Any reference to automobile refinishing made by a manufacturer or importer on a container or in product literature constitutes a recommendation for automobile refinishing.

*Automobile refinish coating or coating component importer, or importer*, means any company, group, or individual that brings automobile refinish coatings or coating components from a location outside the United States into the United States for sale or distribution in the United States.

*Automobile refinish coating or coating component manufacturer, or manufacturer*, means any company, group, or individual that produces or packages automobile refinish coatings or coating components for sale or distribution in the United States, including an entity which produces or packages such coatings or coating components under a private label for another party.
