

40 C.F.R. § 59.407

Recordkeeping requirements.

- (a) Each manufacturer and importer using the provisions of § 59.406(a)(3) of this subpart to determine the VOC content of a recycled coating shall maintain in written or electronic form records of the information specified in paragraphs (a)(1) through (a)(6) of this section for a period of 3 years.
- (1) The minimum volume percent post-consumer coating content for each recycled coating.
 - (2) The volume of post-consumer coating received for recycling.
 - (3) The volume of post-consumer coating received that was unusable.
 - (4) The volume of virgin materials.
