

40 C.F.R. § 59.622

What are the general requirements for obtaining a certificate of conformity and producing portable fuel containers under it?

- (a) You must send us a separate application for a certificate of conformity for each emission family. A certificate of conformity for containers is valid from the indicated effective date until the end of the production period for which it is issued. We may require new certification prior to the end of the production period if we finds that containers are not meeting the standards in use during their useful life.
