

## 40 C.F.R. § 60.1675

---

### What types of operator certification must the chief facility operator and shift supervisor obtain and by when must they obtain it?

---

- (a) Each chief facility operator and shift supervisor must obtain and keep a current provisional operator certification from the American Society of Mechanical Engineers (QRO-1-1994) (incorporated by reference in § 60.17(h)(1)) or a current provisional operator certification from your State certification program.
- (b) Each chief facility operator and shift supervisor must obtain a provisional certification by the later of three dates:
