

40 C.F.R. § 60.5195

By what date must I conduct the initial air pollution control device inspection and make any necessary repairs?

- (a) You must conduct an air pollution control device inspection according to § 60.5220(c) by the final compliance date under the approved state plan, Federal plan, or delegation, as applicable. For air pollution control devices installed after the final compliance date, you must conduct the air pollution control device inspection within 60 days after installation of the control device.
