

40 C.F.R. § 61.174

Test methods and procedures.

(a) To determine compliance with § 61.172(c), the owner or operator shall conduct emission tests and reduce the test data in accordance with the test methods and procedures contained in this section unless the Administrator:

- (1) Specifies or approves, in specific cases, the use of a reference method with minor changes in methodology,
- (2) Approves the use of an equivalent method,
- (3) Approves the use of an alternative method, the results of which he has determined to be adequate for indicating whether a specific source is in compliance, or
- (4) Waives the requirement for emission tests as provided in § 61.13.

(b) The owner or operator shall conduct the emission tests required in paragraph (a) of this section:

- (1) After achieving the optimum operating conditions submitted under § 60.172(b)(2)(ii)(B) for the equipment required in § 61.172(b)(1), but no later than 90 days after the effective date of this subpart in the case of an existing copper converter or a copper converter that has an initial startup date preceding the effective date, or
