

40 C.F.R. § 1036.701

General provisions.

- (a) You may average, bank, and trade (ABT) emission credits for purposes of certification as described in this subpart and in subpart B of this part to show compliance with the standards of §§ 1036.104 and 1036.108. Participation in this program is voluntary. Note that certification to NO_x standards in § 1036.104 is based on a family emission limit (FEL) and certification to CO₂ standards in § 1036.108 is based on a Family Certification Level (FCL). This part refers to “FEL/FCL” to simultaneously refer to FELs for NO_x and FCLs for CO₂. Note also that subpart B of this part requires you to assign an FCL to all engine families, whether or not they participate in the ABT provisions of this subpart.
- (b) The definitions of subpart I of this part apply to this subpart in addition to the following definitions:
- (1) *Actual emission credits* means emission credits you have generated that we have verified by reviewing your final report.
- (2) *Averaging set* means a set of engines in which emission credits may be exchanged. See § 1036.740.
