
40 C.F.R. § 1037.730

ABT reports.

- (a) If you certify any vehicle families using the ABT provisions of this subpart, send us a final report by September 30 following the end of the model year.
- (b) Your report must include the following information for each vehicle family participating in the ABT program:
- (1) Vehicle-family and subfamily designations, and averaging set.
 - (2) The regulatory subcategory and emission standards that would otherwise apply to the vehicle family.
 - (3) The FEL for each pollutant. If you change the FEL after the start of production, identify the date that you started using the new FEL and/or give the vehicle identification number for the first vehicle covered by the new FEL. In this case, identify each applicable FEL and calculate the positive or negative emission credits as specified in § 1037.225.
 - (4) The projected and actual U.S.-directed production volumes for the model year. If you changed an FEL during the model year, identify the actual U.S.-directed production volume associated with each FEL.
