

40 C.F.R. § 1039.230

How do I select engine families?

- (a) For purposes of certification, divide your product line into families of engines that are expected to have similar emission characteristics throughout the useful life as described in this section. Your engine family is limited to a single model year.
- (b) Group engines in the same engine family if they are the same in all the following aspects:
- (1) The combustion cycle and fuel. However, you do not need to separate dual-fuel and flexible-fuel engines into separate engine families.
