
40 C.F.R. § 1039.730

What ABT reports must I send to EPA?

- (a) If any of your engine families are certified using the ABT provisions of this subpart, you must send an end-of-year report within 90 days after the end of the model year and a final report within 270 days after the end of the model year. We may waive the requirement to send the end-of-year report, as long as you send the final report on time.
- (b) Your end-of-year and final reports must include the following information for each engine family participating in the ABT program:
- (1) Engine-family designation and averaging set.
 - (2) The emission standards that would otherwise apply to the engine family.
 - (3) The FEL for each pollutant. If you change the FEL after the start of production, identify the date that you started using the new FEL and/or give the engine identification number for the first engine covered by the new FEL. In this case, identify each applicable FEL and calculate the positive or negative emission credits as specified in § 1039.225.
