

40 C.F.R. § 1042.701

General provisions.

This subpart describes how you may use emission credits to demonstrate that Category 1 and Category 2 engines comply with emission standards under this part. The provisions of this subpart do not apply for Category 3 engines.

- (a) You may average, bank, and trade (ABT) emission credits for purposes of certification as described in this subpart to show compliance with the standards of this part. Participation in this program is voluntary.
- (b) The definitions of subpart J of this part apply to this subpart. The following definitions also apply:
 - (1) *Actual emission credits* means emission credits you have generated that we have verified by reviewing your final report.
 - (2) *Applicable emission standard* means an emission standard that is specified in subpart B of this part. Note that for other subparts, “applicable emission standard” is defined to also include FELs.
