

40 C.F.R. § 1045.230

How do I select engine families?

- (a) For purposes of certification, divide your product line into families of engines that are expected to have similar emission characteristics throughout their useful life as described in this section. Your engine family is limited to a single model year.
- (b) Group engines into the same engine family if they are the same in all the following aspects:
- (1) The combustion cycle and fuel. See paragraph (e) of this section for special provisions that apply for dual-fuel engines.
 - (2) Method of air aspiration (for example, turbocharged vs. naturally aspirated).
