
40 C.F.R. § 1048.410

How must I select, prepare, and test my in-use engines?

- (a) You may make arrangements to select representative test engines from your own fleet or from other independent sources.
- (b) For the selected engine families, select engines that you or your customers have—
 - (1) Operated for at least 50 percent of the engine family's useful life (see § 1048.101(d));
 - (2) Not maintained or used in an abnormal way; and
 - (3) Documented in terms of total hours of operation, maintenance, operating conditions, and storage.
- (c) Use the following methods to determine the number of engines you must test in each engine family:
 - (1) Test at least two engines if you produce 2,000 or fewer engines in the model year from all engine families, or if you produce 500 or fewer engines from the selected engine family. Otherwise, test at least four engines.
