

40 C.F.R. § 1048.420

What in-use testing information must I report to EPA?

(a) In a report to us within three months after you finish testing an engine family, do all the following:

- (1) Identify the engine family, model, serial number, and date of manufacture.
- (2) For each engine inspected or considered for testing, identify whether the diagnostic system was functioning.
