

## 40 C.F.R. § 1051.625

---

### What special provisions apply to unique snowmobile designs for small-volume manufacturers?

---

- (a) If you are a small-volume manufacturer, we may permit you to produce up to 600 snowmobiles per year that are certified to less stringent emission standards than those in § 1051.103, as long as you meet all the conditions and requirements in this section.
- (b) To apply for alternate standards under this section, send the Designated Officer a written request. In your request, do two things:
- (1) Show that the snowmobile has unique design, calibration, or operating characteristics that make it atypical and infeasible or highly impractical to meet the emission standards in § 1051.103, considering technology, cost, and other factors.
