

40 C.F.R. § 1054.15

Do any other CFR parts apply to me?

- (a) Part 1060 of this chapter describes standards and procedures that apply for controlling evaporative emissions from engines fueled by gasoline or other volatile liquid fuels and the associated fuel systems. See §§ 1054.110 and 1054.112 for information about how that part applies.
