

40 C.F.R. § 1054.20

What requirements apply to my equipment?

- (a) If you manufacture equipment using engines certified under this part, your equipment must meet all applicable emission standards with the engine and fuel system installed.
- (b) Except as specified in paragraph (f) of this section, all equipment subject to the exhaust standards of this part must meet the evaporative emission standards of 40 CFR part 1060, as described in §§ 1054.110 and 1054.112.
