## 40 C.F.R. § 141.401

---

### Sanitary surveys for ground water systems.

---

- (a) Ground water systems must provide the State, at the State's request, any existing information that will enable the State to conduct a sanitary survey.
- (b) For the purposes of this subpart, a “sanitary survey,” as conducted by the State, includes but is not limited to, an onsite review of the water source(s) (identifying sources of contamination by using results of source water assessments or other relevant information where available), facilities, equipment, operation, maintenance, and monitoring compliance of a public water system to evaluate the adequacy of the system, its sources and operations and the distribution of safe drinking water.
