

40 C.F.R. § 141.723

Requirements to respond to significant deficiencies identified in sanitary surveys performed by EPA.

- (a) A sanitary survey is an onsite review of the water source (identifying sources of contamination by using results of source water assessments where available), facilities, equipment, operation, maintenance, and monitoring compliance of a PWS to evaluate the adequacy of the PWS, its sources and operations, and the distribution of safe drinking water.
