

## 40 C.F.R. § 141.808

---

### Audits and inspections.

---

(a) The Administrator may conduct routine compliance audits as deemed necessary in providing regulatory oversight to ensure proper implementation of the requirements in this subpart. Compliance audits may include, but are not limited to:

- (1) Bacteriological sampling of aircraft water system;
- (2) Reviews and audits of records as they pertain to water system operations and maintenance such as log entries, disinfection and flushing procedures, and sampling results; and
