

## 40 C.F.R. § 146.62

---

### Minimum criteria for siting.

---

- (a) All Class I hazardous waste injection wells shall be sited such that they inject into a formation that is beneath the lowermost formation containing within one quarter mile of the well bore an underground source of drinking water.
- (b) The siting of Class I hazardous waste injection wells shall be limited to areas that are geologically suitable. The Director shall determine geologic suitability based upon:
  - (1) An analysis of the structural and stratigraphic geology, the hydrogeology, and the seismicity of the region;
